

**iMOL OP**

**INCI Name (US):** Ethylhexyl Palmitate

**INCI Name (EU):** Ethylhexyl Palmitate

**CAS #:** 29806-73-3

**General Information/  
Characteristics:**

**iMol OP** is a clear, colorless, practically odorless liquid. In cosmetics and personal care products, it is used in a wide spectrum of products. The Palmitate ingredients act as lubricants on the skin's surface, which gives the skin a soft and smooth appearance.

**Benefits / Application:**

**iMOL OP** is a non-greasy product with low grease power and good spreading, having a good emollience.

**iMOL OP** is used in products for the skin and hair. When used in lipsticks, it favors the uniform dispersion of the pigments and the formation of a more perfect film on the lips. Provides a silky touch when applied to foundation.

**iMOL OP** is an excellent emollient with no oily film formation on the skin or hair. This product also finds applications in hair masks and hair creams bringing as a benefit a better distribution of the oil on the hair strands, improving the brightness and the comb ability. In addition to being an anti-clogging or anti-clogging agent in sprays.

**Regulatory Status:** No specific regulation

**Physical-Chemical  
Properties:**
